### The Principles of the Drought Relief Act

The object of the government in passing the legislation known as the "Drought Relief Act" was that of providing the machinery and enabling resident farmers coming within the scope of the act to get together with their creditors and reach an amicable settlement of their financial difficulties, and at the same time assure to such farmers the opportunity of providing food and other equipment for their family sufficient to carry them along until the Fall of 1923

#### Special Relief

There is one clause in the Act which is very important, but which may be overlooked. This provides that in order to secure any debt contracted since April 1st, 1922, for seed, fertilizer and farm labor used in the production of this year's crop, and for food and clothing of the debtor, mortgages and encumbrances may be given to an

amount not exceeding \$200.00, notwithstanding the provisions of any other act.

This is very important in districts where the Government had to give relief during the winter, as it should enable the farmer to borrow from a bank by giving a mortgage or lien on his crop, and thereby secure financial help at a very critical time which, otherwise, he may not be able to get. It is suggested, however, that it would be advisable for any farmer contemplating securing advances of this kind to just take the matter up with the Commissioner and secure his advice thereon

#### Exemptions from Seizure

Power is given to the Commissioner to issue certificates in favor of any debtor, certifying that such debtor is entitled to certain exemptions from seizure over and above those allowed in the Exemptions Ordinance, if it is satisfied that it is in the interest of the debtor to do this, and this exemption may be made to include sufficient

### Bow Island

Mrs. A. Fuller of Bow Island who is in the Taber Hospital as one of the staff of nurses, is reported as progressing favourably from the operation which she went under

Mrs. Munroe and son of Medicine Hat, who have been visiting with Mrs. Proudfoot for the past week, returned home on Saturday accompanied by Mrs. Proudfoot who intends staying with Mrs. Munroe for a week. Miss Munroe who also visited with Mrs. Proudfoot, spent a few days visiting with Miss Alice Poole of Burdett before her return to Medicine Hat last Friday

Mr. McCarten of Maleb was in to see Dr. Cairns about his hand, which he had badly torn with a hook, whilst at his work on the farm, the hand is progressing nicely but is most painful

#### Card of Thanks

Mrs. Ware wishes to thank the Ladies of the G. W. V. A. Auxiliary for flowers sent to her at the Medicine Hat Hospital and is pleased to say she is recovering nicely

Mrs. Ware says she will visit in Bow Island after she leaves the hospital

Mr. Turner, Express Agent at the depot, left Saturday for Lethbridge, where he spent the week end, returning on Tuesday, the Agent who was relieving him has left for Purple Springs

BORN—To Mr. and Mrs. G. W. Smith of Maleb a son on July 8th, at the home of Mrs. J. F. Huribut, Dr. Cairns attending

Mrs. Robert Conquergood and Mrs. Fred Keene and child, called on Mrs. Huribut on Tuesday last

Get your Spoon Hooks for Fishing at

Swennumson's  
Main Street  
Bow Island

Mrs. Bell and Mrs. G. Allen motored to Medicine Hat on Monday

Rev. Mr. and Mrs. Danielson and two children who have been visiting at Orion for a few days, returned to Bow Island last Monday

We are sorry to hear that Mrs. Ed. Thompson is on the sick list, all will be glad to hear of her return to health again

Mrs. H. Gubbett is the guest of Mrs. Whitfield

Mr. and Mrs. G. Allen, Mrs. C. H. Bell, Mr. and Mrs. P. Duffy, Harold and Alton Ross all went to Chin Lake to fish last Saturday returning on Monday

Mrs. Otto Gibson and daughter and James Gibson were in town last Friday

Mrs. F. J. Henderson left Tuesday evening for Spokane

Mr. and Mrs. McKenna motored to Yungabaw last week and spent a few days visiting friends there

### Bow Island News

The little Waterson girls have returned to their grandmother Mrs. Smith, to spend their summer vacation, having been away to Calgary to school

Mrs. E. M. LaMarsh and children of Medicine Hat are visiting at the home of her parents Mr. and Mrs. J. Pollitt

Mr. L. H. Strickland of Lethbridge held a meeting re Grasshoppers last Friday evening at "Doc" Garrison's farm. And pointed out to the farmers that they needed to keep on putting out the Grasshopper Poison Bait as new grasshoppers keep on hatching, he said the bait was doing excellent work in exterminating the pest

Mrs. Roy Beattie is visiting in Calgary

Mrs. Ed. Wilmet is visiting in Lethbridge

#### Fishing

Fishing from a Boat or from Shore, when one has the Right Kind of Hooks and Bait, is most exciting—first you feel a gentle nibble, then a fairly strong tug at your line—a sharp twist of your Rod and then the battle begins—you feel you have a weighty one and you fervently pray that your Line and Hooks will hold out long enough to land your Prize and so the battle goes on Until you Land him or Lose him

But you will Never Lose him if you buy your Fishing Tackle and Fishing Hooks at Swennumson's on Main Street, Bow Island

Mr. and Mrs. Grant and Mr. and Mrs. A. Whitney and family and Mr. Rolfe and boys, returned on Monday from their fishing trip

Mr. and Mrs. Ingolsby and daughter and Mrs. Ed. Downing and children motored to Medicine Hat on Tuesday to visit Mr. Ingolsby's mother, Mrs. Seaur at the Hospital, who is reported doing nicely

Mr. W. Hare of Maleb was a Bow Island visitor last Friday

The farmers in Bow Island and districts are busy cutting rye this week for winter feed

A number of pioneers who were enjoying Sunday at the coulees in Marsh district were surprised with a good shower of rain, but everybody will get smiling as they knew it meant as much to the crops

#### New Tires

And Repairs  
At Reasonable Prices

If you wish to Save Money on New Tires or Repairs it will Pay You to look over the Prices quoted in T. Ingolsby's Advertisement on this page

Mr. and Mrs. T. Conquergood and children were in Bow Island on Tuesday

### Creston News

The Wyndell strawberry crop has fallen short and the pickers are returning home

The fire that have been raging in Canyon City neighbourhood are now under control at last

The apple crop is coming on in fine shape and present conditions indicate a larger crop than last year

The Rev. Dr. Hostie, travelling Secretary of the Lord's Day Alliance was here on Sunday and occupied the pulpit at the Presbyterian Church in the morning and the Methodist Church in the evening. He gave a very fluent address on the work of the Lord's Day Alliance and last but not least enveloped with small pencils inside were passed for people to enclose or subscribe any amount of money to the

cause, which they felt like giving, as we all know, the good work claims our hearty support

Monday July 3rd, was the hottest day ever experienced in the history of the Valley, many of the local Thermometers showing 96 in the shade

Creston was besieged with ball teams last Sunday, the first game was between Erickson and Creston, the game ended 15 to 8 favor of Erickson, the second game was between Erickson and Wyndell with Wyndell taking the game by a score of 8 to 16, Wyndell had an Indian battery which showed good work, the Creston team then played Wyndell's five lining game, which resulted in a tie, the shower of rain in the morning put the ground in first class shape

Mr. Evans of Bow Island is a Creston visitor this week and is taking a general view of the country

## Agreement Is Reached On Railway Rate Cut On Grain And Flour

Ottawa.—After stormy sessions lasting all day Saturday and evening, the special House committee on transportation costs decided, by a vote of 13 to 1, on its report to the House.

In brief, the committee recommended: (1) Suspension of the Crows' Nest Pass agreement, except in respect of grain and flour, for one year from July 6, 1925, with power to the cabinet to suspend it for another year by order-in-council, if then existing conditions justify such action.

(2) Crows' Nest rates on grain and flour to apply from July 6, (the date when suspension of the Crows' Nest Pass agreement expires).

(3) That the best efforts of railway managers and of the board of railway commissioners be directed towards a general reduction in railway rates.

(4) That there should be the closest co-operation between the management of the different Canadian railways and between the management of the railways and their employees to

secure a reduction in railway operating costs.

The committee's decision was reached only after conservative members of the committee, in angry protest, had withdrawn from the committee.

They claimed that the report was a cut and dried affair, decided at a government caucus. In a statement they issued, submitted to their withdrawal from the committee, the conservative members made the assertion that, when the committee met in the morning, Sir Henry Dyer asked if it were true, as reported, that the government had interviewed the representatives of the railways and, after interviewing them, had determined on a policy.

## Restore Former Grain Rates

Ottawa.—A settlement has been reached, it is understood, in the railway rate problem in which a long drawn out parliamentary battle was threatened.

It is stated on good authority that the basis of the settlement is the grant to the western members of the Crows' Nest Pass agreement rates in grain.

This concession, it is understood, is accompanied by the other reduction in the rates on basic commodities which have already been announced.

To Amend Immigration Act

Discussion in Ottawa House Over Woodsword Bill

Ottawa.—The House concurred in the report of the special committee on the Woodsword Bill to amend the Immigration Act in regard to deportation and other provisions inserted during the absence of the bill from the House on the day of the strike in 1919. The committee, while recommending that the Woodsword Bill should not be proceeded with this session, also recommended that the committee's report, however, did not find favor with Mr. Woodsword, who represents Winnipeg Centre in Labor interests. He objected to it on the ground that it did not go far enough; that under one of its proposed amendments of the Immigration Act, the Minister of Immigration could order the deportation of a member of the House born outside of Canada who objected to its policies. He moved its amendment that and possibly should be reported for any political offence committed in Canada without being granted trial by jury.

Hon. Charles Stewart, Minister of the Interior, thought the amendment would throw the gate open wide. It was defeated by a large majority.

Mounted Police Leave Brandon

Brandon, Man.—In spite of strenuous efforts to retain the local squad of the Mounted Police, the men have been ordered to leave the city.

It now appears as if it will leave the city. The horses have been sent to Regina, and the men leave shortly.

Representation was made to the Government that the city had assumed heavy expenses in preparing for the placing of a barracks here, and it was thought the Government would leave at least a portion of the force here.

Dr. Sun Yet Tsen Prisoner

Peking, In.—Sun Yet Tsen, formerly president of the South China republic, has been taken prisoner by the United China forces and is being held captive on the Chinese coast.

In the West River near Canton, according to advices received by the foreign legations here from Canton.

Floods in Bulgaria

Sofia, Bulgaria.—Ten thousand persons have been rendered homeless by devastating floods which inundated the suburban districts of Sofia, following torrential rains. No loss of life has been reported. There was much damage to livestock.

Country Weekly Papers Exempt from Sales Tax

Ottawa.—The resolution to include the sales tax by 50 per cent, was adopted in the House.

To the list of articles exempted from the tax were added self-rising flour and condensed, evaporated and powdered milk. It was also decided to exempt printing offices doing a business of \$10,000 a year or less from the operation of the tax. The idea is to exempt small commercial enterprises.

Delivery as sales to foreign buyers either for immediate or future delivery, provided that such wheat should be milled or manufactured in Canada.

Mr. Meighen asked if it was not a fact that this clause was compulsory inasmuch as it compelled the board to sell to millers. It was a compulsory clause affecting all rights. The Minister of Justice should be asked to raise upon it before it was adopted.

At this point, Mr. McMaster moved that another clause providing that the board be given power to take steps for the fulfillment of bona fide contracts for the sale and purchase of wheat outstanding at the time the act comes into force.

Mr. Johnson said that this clause was acceptable to the Progressives. It included none of the objections.

Robert Peters, Editor of The News, Carleton Place, Ontario.

Cyclone in Mossbank District

Windstorm Causes Considerable Damage to Farm Property

Regina.—A cyclone from the south-east travelling northwest struck Mossbank district and did damage which was high.

The farm buildings on the farm of John Ireland, including garage, granary, large barn 24 by 12 ft., were reduced to kindling, all the outbuildings have disappeared and the roof of the kitchen is nowhere to be found. The family took refuge in the cellar.

An automobile, wagons and machinery were twisted into junk. One of Mr. Ireland's cows was taken up in the air and in falling some distance away was killed.

On the farm of Peter Horn, Herb Payne and Josiah Ireland, granaries, barns and outbuildings were blown to pieces and completely destroyed.

For a time Mossbank people watched the funnel shaped cloud which came within one mile from town near the Elmer Victoria farm. Here it raised and descended, descended in all its fury on the farm of John Ireland, and then it was seen to be a heavy rain and some hail fell following the cyclone.

Practice of Conferring Titles

Appointment of Ministers to Consider Question in Britain

London.—Fifteen members of the House of Commons have agreed to support the submission of a motion for the appointment of a select committee to consider the system under which titles are conferred.

Mr. Joseph Devlin, M.P. for Falls, Belfast, asked: "Will Mr. Chamberlain state what is charged for a baronetcy and what price he is paid for knighthood?"

There was no answer to this question.

Stepping from Moving Train Illegal

Toronto.—The attention of the travelling public is called by the judgment of the appellate division going to the fact that it is contrary to law to step from a train while it is in motion.

The court allows the appeal of the Grand Trunk Railway from the decision of Judge Huxford and a jury awarding Mrs. E. M. Hill, of the village of Hastings, \$175 damages for a sprained ankle. Her action is dismissed with costs.

Field Marshal Sir Henry Wilson, one of England's most illustrious soldiers, was chief of the Imperial Staff during the last stages of the world war, was assassinated on the doorstep of his residence in London.

The assassin had intended about a month for his return from the front, and was on his way to the front when he was shot.

## Violent Windstorm Causes Heavy Loss In Manitoba Sections

Portage la Prairie, Man.—With one infant girl crushed to death under the family roof and her mother severely injured, with many buildings wrecked and trees uprooted and littering the streets of the city, Portage la Prairie is counting the loss from the windstorm which swept through the Portage plain shortly after 2 o'clock Friday morning, leaving desolation in its wake.

It is certain so far that the loss will aggregate in the neighborhood of two million dollars in the city and surrounding district.

The greatest force of the tempest raged during the first 20 minutes. During the succeeding two hours the wind continued with the velocity of a gale, but did not augment the damage caused during the first few minutes.

During the storm, large hall-dormitories were driven against the walls and roofs of buildings with the force of axe blows; windows were crashed in and the hand of destruction seemed to reach forth to reach forth to the roofs of the storm, tearing roofs from buildings, flinging signs about like tin toys, snapping telephone poles and trees and playing havoc in every direction. The wind, travelling in circles, could not be followed wherever it exerted its full fury.

The Porsythe grain elevator, a short distance north of the town, was struck by lightning or blew out from internal combustion and broke into flames. The fire, which broke the rain, mounted high above the building, lighting a lurid reflection into the sulken mass of clouds and lent a more terrifying aspect to the scene.

The second fire broke out in the Premier Grain Milling Company, in the city, and soon spread to a considerable mass of corn and twisted wreckage. It is estimated 20,000 bushels of grain was destroyed in the building.

The total damage approximates \$125,000.

Winnipeg.—Manitoba is recovering from the effects of the most destructive windstorm of years, which, be-

lieved in 1914, swept down from Eastern Saskatchewan by way of Brandon, Portage la Prairie, Winnipeg and Lyleburg to the Ontario border, leaving a toll of three dead, many injured, some of them very seriously, and of property loss which will run into the hundreds of thousands of dollars.

The house of W. Spencer collapsed under the impact of the wind, and the infant daughter was killed. Mrs. Spencer was severely injured, receiving broken ribs.

Accompanied by a rainfall of tropical violence, the storm struck Winnipeg and blew with an extreme velocity of 54 miles an hour, to an alarming accompaniment of electrical disturbances. Terrible gusts of wind shook the city to its foundations.

Roofs were carried away from many structures, big and little alike; an ice warehouse toppled in a heap; hundreds of fine trees were uprooted or deprived of branches, which fell to the ground.

Telephone wires were broken down to add an element of danger which later in the morning cost the life of Garyfield Hill, aged eight, who grasped a live wire and was instantly killed. In about an hour the storm had passed on.

Further damage of great severity was done at Lyleburg, where the home of Mrs. Pauline Kozarke was struck by lightning or blew out from internal combustion and broke into flames. The fire, which broke the rain, mounted high above the building, lighting a lurid reflection into the sulken mass of clouds and lent a more terrifying aspect to the scene.

The second fire broke out in the Premier Grain Milling Company, in the city, and soon spread to a considerable mass of corn and twisted wreckage. It is estimated 20,000 bushels of grain was destroyed in the building.

The total damage approximates \$125,000.

Winnipeg.—Manitoba is recovering from the effects of the most destructive windstorm of years, which, be-

lieved in 1914, swept down from Eastern Saskatchewan by way of Brandon, Portage la Prairie, Winnipeg and Lyleburg to the Ontario border, leaving a toll of three dead, many injured, some of them very seriously, and of property loss which will run into the hundreds of thousands of dollars.

The house of W. Spencer collapsed under the impact of the wind, and the infant daughter was killed. Mrs. Spencer was severely injured, receiving broken ribs.

Accompanied by a rainfall of tropical violence, the storm struck Winnipeg and blew with an extreme velocity of 54 miles an hour, to an alarming accompaniment of electrical disturbances. Terrible gusts of wind shook the city to its foundations.

## Drought Relief Act

Continued from Front Page

seed grain to take care of the 1923 crop.

**Property Seizures**

Provision is made whereby the

Lienholder Governor in Council can, by

proclamation, if necessary, stay all

proceedings of every kind except

where a judge has given a writ of

one creditor, acting on behalf of all

others, to start action. This should

prevent a multitude of legal actions

this fall, and therefore eliminate con-

siderable expense. Even in such cases,

however, the Commissioner has the

power to make application to the judge

without notice to any other party,

that a Receiver Order be issued

appointing the commissioner receiver

for the whole crop. Provision is also

made to do this if it is thought the

farmer is not trying to do the right

thing. This should be of considerable

assistance and not only farmers but

their creditors also should be encouraged

to make application to the Commissioner

for enquiry into the affairs of any

debtor.

**Those Coming under the Act**

The Act specifies that a resident

means a person who has been resident

and actively engaged in farming opera-

tions in the drought area, established

by proclamation, for one year prior

to January 1st, 1922, and who con-

tinues to be so resident and engaged.

Farmers who have had any trouble

with their creditors, or who anticipate

that trouble might arise, will find it

to their interest to communicate at

once with the Commissioner at Calgary

so that he can make inquiry into the

circumstances, and it would be advi-

sable when writing, to mention the

land owned or occupied, so that the

Commissioner can check up at once

whether the land is included in the

drought relief area.

It would be a good idea to write the

Commissioner anyway and find out

just how the whole matter stands.

**Need For Immediate Action**

One point which should be emphas-

ized is the need for immediate action

on the part of those intending to avail

themselves of the provisions of the

Act, and it is recommended that the

farmer or his creditors should not at-

tack the matter in hand, so there will

be plenty of time to check up all the

work.

**Do Not Sign Contracts**

It is quite probable that cases will

arise where farmers are asked by

insistent creditors to sign some kind

of a document, the impression being

that this will make a speedy differ-

ence anyway but that it might

establish greater confidence between

the farmer and the creditor.

Such a document may be all right,

but on which other hand it may be

one which will cause trouble in the

near future and make conditions dis-

advantageous for all parties concern-

ed in arriving at a satisfactory settle-

ment. A good policy to adopt at the

present time is that no agreements or

documents of any kind should be signed

until advice has been first been secured

regarding same, and it would be a

good idea to secure such documents

and send them to the Commissioner,

Drought Area Relief Act, Calgary,

for examination and information

thereon, before completing them. This

will not mean very much delay, but

it will mean that in any case there will

be able trouble in the future and if this

is so then the delay is well worth

while. A good plan to adopt at the

## How Island Review, Bow Island Alberta, July 14th, 1922

### WINNIFRED NEWS

From Our Own Correspondent

WINNIFRED, July 7. Mr. Al Chish-

olm of Winnifred and Mrs. Rosewood

of Boston, Mass., were quietly married

in Medicine Hat last week. This

came as a complete surprise to their

many friends here. On their return

to Winnifred a host of friends gathered

at the home of Mr. and Mrs. Chish-

olm and a big charity party was

in waiting. An exquisite lunch was

served.

Mr. and Mrs. Schagel whose

place is now Erikson motorized from

Minneapolis, where they spent the

winter, to Mr. Wilson Tambours where

they made a short visit and started

for Yukon where their two

daughters are going to school. Mr.

and Mrs. Schagel were about two

weeks on their trip.

Mr. Oliver Hapson's little girl is at

home again and is getting over her

illness. She has been in hospital for

a good long time, but we are all very

glad to know she is well with her

parents again.

Dorothy Thomson south of Winnifred

is home again after a critical

operation at the Hospital at Medicine

Hat, we hope the operation will be

lasting.

Two nice showers since last report,

and it is a very great help to the

farmers were almost without hope of

the H. B. flying, but these late rains

have filled out the heads fine.

Robert Smith an old timer here in

Winnifred is helping out in the Post

Office in the absence of the Post Mas-

ter, we are always glad to see Robert.

Mr. Backstrom has been on an ex-

tended trip to the west, at Washing-

ton, Oregon and other places, but he

thinks his own home at Winnifred

looks better to him than the one he

saw, tell me well enough alone.

W. J. Hickmore was taken to the

Hospital at Medicine Hat last week,

since having the flu last spring she

was being very poorly, we hope for her

recovery soon.

Last Monday was one of our hottest

days, it registered 90 in the shade. It

was surely warm, but we have had

very few so far this summer.

It is rumored that A. Chisholm has

settled down to married life, well if

this be true his life will have

undoubtedly clouds to make a glorious

sun.

News comes from High River, Alta.

of the marriage of Miss Nona Veldt,

(at one time a teacher in the P. W. N.

School District, also in the Maxwell

District) to Mr. Charles Manford an

ex-soldier. Mr. Manford is connected

with the Canadian Bank of Commerce

at High River where they will reside,

we wish them a beautiful supply of

love, and may their sorrows all be

little ones.

**Fall Rye For Pasture**

(Experimental Farm Note)

The growing of fall rye as a grain

crop has increased greatly in Western

Canada in recent years. In addition

to its general value for grain produc-

tion it is capable of filling an impor-

tant place as a pasture crop. On

Brandon Experimental Farm it has

been used to satisfy an extent as a

supplementary pasture crop. It has

been given very satisfactory results. It

is much better for this purpose than

spring rye because of its tendency to

grow covering of leaves over the

ground as is the habit of winter crops

rather than to shoot quickly into

seed.

It does not produce as good a qual-

ity of pasture as the best grasses and

clovers, and it is not proposed that it

should replace these as the main pas-

tures. However, there are seasons

when the regular pastures are scanty

and supplementary pasture crops to

fill these gaps are worthy of con-

sideration.

One of the best features of fall rye

for pasture is its readiness in the

spring. Since it lives over winter, it

is ready to grow in the spring as soon

as conditions are favorable. It does

not require much heat to start its

rye, it grows in the cold April weather

when many other kinds of fodders

are of little value. The rye is fre-

quently a good growth as soon as

the land has dried in the spring

sufficiently to carry the cattle. It is

early and more nutritious than any

of anything else in point of time.

It is also particularly valuable for

late fall pastures. When other crops

are all harvested or are dried up or

the more tender ones frozen, fall rye

will be providing abundance of feed

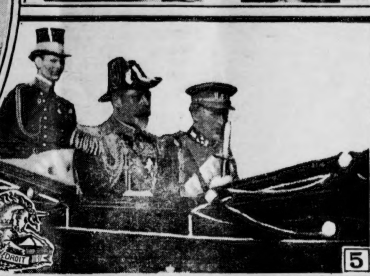

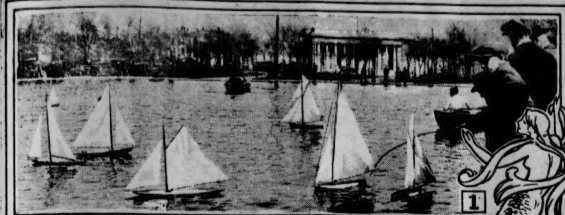

right up to freeze-up. It can also be

used for milch-feed by sowing

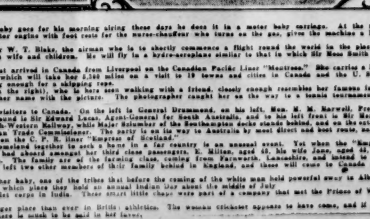

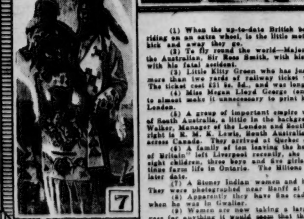

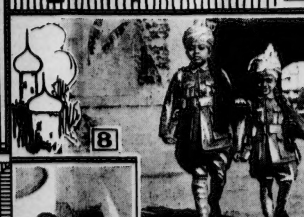

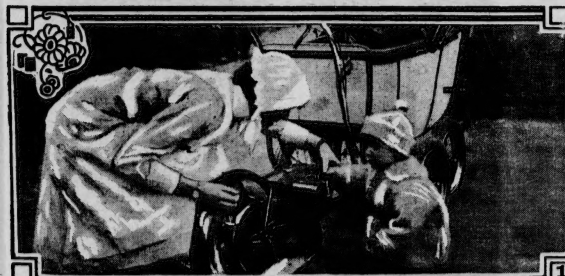

it in June. However, the best of the

# PEOPLE AND EVENTS IN THE PASSING NEWS

- (1) Model yacht racing a popular sport in Canada. The lake in Park Lafontaine, Montreal, is frequently the scene of model yacht regattas on Saturday afternoons. The yachts are beautifully built, and some of them make fast time. The events are usually attended by large crowds.
- (2) Mount Aspinloine and glaciers near Banff, Alberta, which will this year be visited by the Alpine Club of Canada. Camp will be made on July 29, and the interesting district of the Fallow Pass to the south of this mountain will be covered by the enthusiastic climbers.
- (3) When Earl Haig was installed as Chancellor of St. Andrew's University, Miss Helen Terry, the great actress was given an honorary degree. In the picture are seen Earl Haig, Sir James Barrie, and Miss Terry.
- (4) King George and Queen Mary while on their recent pilgrimage to the graves of British soldiers in Europe visited the spot where Nurse Cavell was executed, and laid thereon a wreath. The photograph shows the wreath being placed in position.
- (5) This excellent picture of King George of England, and King Albert of Belgium was taken in Brussels during the recent Royal visit to the British soldier burial grounds in Belgium and France.
- (6) Now that the more severe restrictions on immigration have been removed, new arrivals in this country from Great Britain are increasing in number. This group is part of a party of 18 families, totalling 107 persons who recently came from England on the Canadian Pacific liner "Missandou." They were a fine lot of future Canadians, and with them a total of 1,000,000, with which to start life in this country.
- (7) Even though the boy Emperor of China is not faced with the task of ruling his unhappy country, he is bound to have trouble. He has now reached the age at which his advisers must lead him two wives, and latest reports say he has little chance of escaping this doubtful privilege.

- (1) When the up-to-date British baby goes for his morning airing these days he does it in a motor baby carriage. At the rear, sitting on a swing seat, is the little motor engine with feet cast for the motor-heads who turn on the gas, give the motor a little kick and away they go.
- (2) The world-famous W. G. Plunk, the citizen who is to shortly commence a flight round the world in the place of the Australian, Sir Ross Smith, with his wife and children. He will fly to a hydro-aeroplane similar to that in which Sir Ross Smith met with his fatal accident.
- (3) Little Billy Green who has just arrived in Canada from Liverpool on the Canadian Pacific liner "Hesperus." He carries a little more than two weeks of railway travel which will take him 1,100 miles on a trail in 18 weeks, and cities in Canada and the U. S. A. The train will all be in, and will be the most direct and best route.
- (4) Miss Emma, Lady George (on the right), who is here now, walking with a friend. She is a very lovely woman, and her husband is a very handsome man.
- (5) A group of important people visiting in Canada. On the left is General Drummond, on the right, Hon. M. M. Macdonald, Premier of South Australia, a wife in the background is Sir Edward Leves, Agent-General for South Australia, and on the extreme right is M. M. Leves, South Australian Agent-General. They arrived in Quebec on the C. P. R. liner "Empress of Scotland."
- (6) A group of people, including a man in a military uniform, standing outdoors.
- (7) A group of people, including a man in a military uniform, standing outdoors.
- (8) A group of people, including a man in a military uniform, standing outdoors.
- (9) A group of people, including a man in a military uniform, standing outdoors.

# \$2. incash prizes

Many people have discovered that 2 in 1 Shoe Polishes are good for other things than for shining shoes. For example:—

- 2 in 1 BLACK—Good for polishing motor cars; refinishing suit cases, saddles, black gloves, rubbers, hats, etc.
- 2 in 1 WHITE—cake or liquid—Good for cleaning hats, stains in white skirts, white kid gloves, auto tires, etc.
- 2 in 1 TAN PASTE—Good for polishing furniture, hardwood floors, etc.

For the Best List of New Uses for 2 in 1, We are Awarding Cash Prizes as Follows

|   |  |
|---|--|
| 1st award \$500.00—for the most acceptable list | 20 Prizes of \$15.00—for the next twenty |
| 2nd " 300.00—for next best list                 | 50 " 5.00—for the next fifty             |
| 3rd " 200.00—for third best list                | 50 " 2.00—for the next fifty             |
| 10 Prizes of 25.00—for the next ten             | 100 " 1.00—for the next 100 lists        |

Try to find new uses for any of the 2 in 1 Shoe Polishes, either black, tan, oxblood, or brown paste, white cake or white liquid, black or tan combination.

Write on one side of paper only. List uses according to colors. Awards will be made according to decision of special committee, and payment made on or before October 1st, 1922. All lists submitted to become our property. Address:—

Price Editor,

F. F. DALLEY COMPANY OF CANADA LIMITED,  
HAMILTON, CANADA.

## 2 in 1 Saves You Money

### WORLD HAPPENINGS BRIEFLY TOLD

More than a million feet of standing timber, poles and posts valued at \$2,000 have been destroyed by bush fires on the Arrowhead branch of the Canadian Pacific Railway.

In order to avoid the perils of anthrax, the United States Government has passed a bill prohibiting importation and interstate commerce in brushes made of horsehair.

The British Government has informed the Egyptian Government that the preferential treatment heretofore accorded Egyptian products passing their customs has been abolished in consequence of Egypt's new status.

Sixty thousand people passed the coffin of Lieutenant Bennett, the airman who was killed at the same time as Sir Ross Smith, who met an accidental death in England, as the body lay in state in Queen's Hall in the Parliament House, Melbourne.

Foot and mouth disease has again broken out among animals in England, this being the worst outbreak yet reported to the Board of Agriculture. The peak has occurred in the Derbyshire area, where over 100 animals have been certified affected by the disease.

The House of Commons unanimously approved of the treaties passed in the Washington Disarmament Conference. The importance of the treaties was voiced by leaders of all the three parties in the House. They likewise expressed Canada's appreciation of President Harding in calling the conference.

Prof. C. A. Chant, Chief of the Astronomical Department of the University of Toronto, who is heading the University's research party which is to test out the Einstein's theory of relativity by means of observation from Australia on the total eclipse of the sun on September 21, has sailed for the Antipodes.

### To Run Down Criminals

Seventy-two high-powered passenger automobiles are operated by the police department in 71 precincts of New York, to rid the city of all persons or convicts and others suspected of violence or of crime. Each of the police cars will be constantly on patrol.

Yarmouth, N.S., March 24, 1921. The Secretary of the Yarmouth Athletic Association, who were the champions for 1920 of the South Shore League and Western Nova Scotia Baseball, states that during the summer the boys used MINARD'S LINIMENT with very beneficial results for sore muscles, bruises and sprains. It is considered by the players the best white liniment on the market. Every team should be supplied with this celebrated remedy.

(Signed) JOSEPH L. LEBLANC,  
Sec'y Y. A. A. A.  
Champion N.S. South Shore League, 1920.

A full-sized model of Westminster Abbey was specially erected near Berlin recently for the purposes of a motion picture production.

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Hollister's Corn Remover is available.

Arabs Discovered Alcohol  
Alcohol was first distilled by the Arabians, and when we talk about coffee and alcohol we are using Arabian words.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, or ten convulsions. Under these conditions, one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and pass away in the excretions.

The little sufferer will be immediately eased and a return of the attack will not be likely.

Hayden was one of the most eccentric of the great musicians. In the dead of night and in the seclusion of his own study, he invariably sat down to work in full court dress—sword, lace hat, silk stockings, etc.

### Scientist Makes Discovery

Dr. Owens Says Dust Is From Other Worlds

The dust which is suspected to have come from other worlds has been discovered floating about over England. In his investigations, Dr. Owens, the adviser on atmospheric pollution to the Meteorological Office, has found some of this dust. Under the microscope the particles look like round, transparent balls of solid matter. It is, of course, possible that they are from some active volcano, but if not volcanic, they must have descended upon the earth from outer space.

Micro-photographs have been taken of this dust, as well as some dust which Dr. Owens believes travelled to this country from Germany. "This German dust," he said, "was blown over the North Sea, and was captured on the east coast."

For Frost Bites and Chilblains.—Chilblains come from undue exposure to slush and cold and frost bite from the icy winds of winter. An the treatment of either an excellent preparation is Dr. Thomas' Electric Oil, and relieves the pain. The action of the oil is prompt and its application is extremely simple.

Worth Noting  
A gift of \$2 in Roman money was recently received from children of a village near Lucerne, sent to "aid the children of families made destitute by the destruction of the Knickerbocker Theatre, Washington, D.C." To children with their limited outlook, the Knickerbocker disaster appeared something which affected the whole American people, and since they had been helped by American children they wanted, out of their limited means, to give help in return.—Christian Science Monitor.

Aged one hundred, an Austrian baron was recently arrested in an unhabited house, where he had lived for a fortnight, drinking the wines in the cellar.

### A NEW FAD.

The eternal female who is ever on the lookout for something new, something different, has started a new fad which promises to become very popular. This new fad is the "Portia" costume. Shown here is an illustration which will give you an idea of what this costume is like.

### HOW TO BEST TREAT STOMACH TROUBLE

A Tonic Medicine is Needed to Strengthen the Stomach  
The old-fashioned methods of treating stomach diseases are being discarded. The trouble with the old-fashioned methods was that when the treatment was stopped the trouble returned, often in an aggravated form. The modern method of treating digestion and other forms of stomach trouble is to tone up the stomach and glands to their normal work. The recovery of the appetite, the disappearance of pain after eating, the absence of gas, are steps on the road to health that those who have tried this treatment remember distinctly. Dr. Williams' Pink Pills are a tonic which through their action on the digestive organs, and therefore the best remedy for simple or chronic cases of stomach trouble. The success of the treatment is shown by the fact that Mr. Joseph Leclerc, Wellington, P.E.I., who says:—"I have been a great sufferer from indigestion and stomach trouble, and nothing that I took for it did me any good until I began Dr. Williams' Pink Pills. I was so bad that I did not want to eat, and six weeks later I am feeling better than I have done for years. I hope my experience will be of some benefit to others."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail, post paid, at five a box or six for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

English tradesmen have been recently inconvenienced by the short age of copper coins, for which the blame is laid on the penny-in-the-slot machines.

One of the most common complaints of infants is worms, and the most effective application for them is Mother Gravel's Worm Expeller.

### Saskatchewan Brands Act

Many Brands Will Have to be Renewed this Year  
A violation of the Brands Act, resulting in conviction and fine, is reported by the Saskatchewan provincial police to the Deputy Minister of Agriculture for the province. The case occurred in Goodwater, and as it was a first offence and there were extenuating circumstances, the minimum fine of \$5.00 was imposed, although the act provides for a maximum fine of \$20.00.

W. F. Windstet, recorder of brands, Provincial Department of Agriculture, states that the act respecting brands is on the whole very well observed, as ranchers and farmers generally realize the benefit the livestock industry receives from an act which gives a man prima facie evidence in any court or tribunal in Saskatchewan of the ownership by the owner of any brand of the animal bearing the same brand.

Many brands have to be renewed this year as the brands allotted in both 1916 and 1918 have to be renewed before December 31, 1922. In 1916 brands were issued for a five-year period, but the act was amended in 1918 when brands were allotted for four years, so that brands allotted in 1918 have to be renewed a year before the brands allotted in 1917.

The world says good things about men who are dead—but not about those who are dead broke.

Minard's Liniment for Dandruff

W. N. U. 1426

WARNING! Say "Bayer" when you buy Aspirin. Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds-  
Toothache  
Headache  
Neuralgia  
Rheumatism  
Neuritis

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark registered in Canada of Bayer Manufacture of Monach. Aspirin is a registered trade mark. In all well known drug stores, the Bayer Company will be supplied with their general trade mark, the "Bayer Cross."

### Newspapers Help In

Solving Problems

Minister of Interior Tells Association of Power of Press

At the conclusion of the Canadian Weekly Newspapers Association held in Ottawa recently, a number of interesting papers were read. At the conclusion of the Canadian Weekly Newspapers Association held in Ottawa recently, a number of interesting papers were read. At the conclusion of the Canadian Weekly Newspapers Association held in Ottawa recently, a number of interesting papers were read.

### The Most Desirable Immigrant

Young Man Has Many Advantages

Youngful immigrant, all other things being equal, is of greater value to a Dominion than one of mature age. The adult immigrant is an asset with certain disadvantages from which a more youthful new comer is almost, if not entirely, free. The man of mature age who finds himself in a new country is faced with conditions that are novel to him, and the problem of assimilation presents a greater degree of difficulty. As far as the country he has come to is concerned, he has fewer years of usefulness before him than the youth. The boy or youth immigrant from the moment of his arrival has many advantages, being in a state which more readily lends itself to moulding. His age may be regarded as a guarantee of many years of usefulness and he has not that mass of useless knowledge acquired with the years to be rid of or adjusted to the new environment.

### A Hundred Dollars Worth For Thirty-Five Cents

When you are awakened from a sound sleep by cramps, when without a moment's warning pain springs upon you, it's thirty-five cents you would readily pay for a bottle of Dr. Williams' Pink Pills. You could secure from a thirty-five cent bottle of Dr. Williams' Pink Pills. Nothing like Nervinette to relieve cramps, colic, indigestion, diarrhoea, and kindred ills. Nothing better for Nervinette, colic, indigestion, diarrhoea, and kindred ills. The price of Nervinette is thirty-five cents, no more, no less, in all stores where medicines are sold.

### A Recipe for Whitewash

Slake one-half bushel of fresh lime with boiling water, covering the receptacle to keep in the steam. Strain the liquid through a fine sieve, and add 7 pounds of fine salt, previously dissolved in warm water; 2 pounds of ground rice, boiled to a thin paste and stirred in; 1 pound of white glue, soaked first in cold water until swollen, then carefully melted into the mixture and let it stand covered for a few days before using.

### Appetite and Health both welcome Grape-Nuts

THERE'S nothing more gratifying and delightful than a dish of Grape-Nuts at breakfast or lunch time. The crispness and the full, rich flavor of this splendid food have a wonderful charm for the taste.

And Grape-Nuts builds health. Nourishment for tissue and bone and nerve and brain is contained in

Grape-Nuts in easily-digestible form.

If you and your children have not yet begun to enjoy the benefits of this wonderful food, suppose you begin today with an order to your grocer.

Grape-Nuts is ready to serve from the package—and always crisp and appetizing.

### Grape-Nuts—THE BODY BUILDER

"There's a Reason"
